

Alain NICOLAS

Fullstack Blockchain Developer

Engineering degree, Information Systems Management (EPF - 2015)

EXPERIENCE

ConsenSys, Paris — *Developer*

MARCH 2022 TO TODAY

Within “Professional Services”, I have the opportunity to participate in custom projects, tailored to our clients’ needs, using ConsenSys’ products such as Infura and MetaMask.

Talan Labs, Paris — *Developer*

JULY 2015 TO FEBRUARY 2022

As a developer then a tech lead, I took part in consulting and implementation missions. Trainees supervision, manager of a 6-persons team, trainer on Blockchain technologies.

Internally: blog creation, posts writing, technical speaker, technical recruitment.

Talan’s Blockchain offer co-creation: training creation, R&D, DApps development on Ethereum, Quorum, Fabric and Corda, architecture design for production-ready hosting.

PROJECTS

Redacted client — Crypto-lending platform - *Developer*

MARCH 2022 TO TODAY

Creation of a platform aiming to lend stablecoins against BTC or ETH collateral

EDF Commerce — Direction Numérique - *Tech Lead*

SEPTEMBER 2021 TO FEBRUARY 2022

Craftsmanship and DevOps good practices implementation for PoCs creation

FuturMaster — Master Data & Demand Planning - *Tech Lead*

JULY 2019 TO AUGUST 2021

Redesign of an heavy client legacy software to a webapp based on a microservices architecture

Design and implementation of environments able host Blockchain networks and nodes

EPF — Blockchain & Craftsmanship Training - *Trainer*

FEBRUARY 2018 TO FEBRUARY 2022

Blockchain advocacy to clients and EPF students, inter-bank workshops animation and technical training through practice

Talan — Talan Coin - *Developer*

DECEMBER 2016 TO DECEMBER 2018

Design and implementation of an internal cryptocurrency: Talan Coin, based on Ethereum, with a multiple applications ecosystem aiming to reward reputation

SKILLS

Blockchain

Ethereum, Corda, Hyperledger Fabric, Quorum

Languages

Java, JavaScript, TypeScript, Solidity

Solutions and frameworks

NestJS, React, Spring Boot, Node.js, Vue.js, Angular

Tools

Git, Gitlab, GitHub, IntelliJ, Maven, Azure DevOps, Docker, SonarQube, JUnit

Databases

MongoDB, Oracle DB, MySQL

LANGUAGES

French Native

English Professional

Spanish Notions

PASSIONS

Cycling

Alpine skiing

Photography
